CAREER OBJECTIVE

A highly skilled Full Stack Developer proficient in languages such as C and Python, with a strong foundation in data structures and database management. I bring a wealth of experience in designing, developing, and deploying end-to-end web applications. My expertise lies in crafting efficient algorithms through the application of robust data structures, ensuring optimal performance and scalability. In addition, I possess a proven track record in managing databases, optimizing queries, and maintaining data integrity. Known for my problem-solving abilities and collaborative approach, I have successfully contributed to projects that demand seamless integration from front-end to back-end.
